

Healthcare Intel Digest

Week of August 24, 2026

Market data through: August 21, 2026

Narrative created: August 24, 2026

Weekly review of healthcare services, technology, distribution, and diagnostic company performance, changes, earnings activity, and strategy narrative.

In the News

- [1. Aetna's commission changes reveal where 2027 Medicare Advantage growth is no longer economic](#)
- [2. The 2027 commercial trend print strengthens the utilization-management and payment-integrity case](#)
- [3. R1 is buying the authorization-to-claim control point](#)
- [4. Summa's technology stack turns a health system into a vertically financed proving ground](#)
- [5. Cityblock is consolidating urban Medicaid and rural MA care infrastructure](#)

Executive View

- **Aetna is using broker compensation as a product-level enrollment throttle.** Select Medicare Advantage plans become noncommissionable on September 15, 2026, with additional changes effective January 1, 2027—new operating evidence that margin recovery is taking priority over membership growth. ([Becker's Payer, "Aetna to cut Medicare Advantage broker commissions again," August 21, 2026](#)) ([beckerspayer.com](#))
- **Commercial medical-cost pressure remains close to double digits.** Aon projects a 9.5% increase in 2027 employer healthcare costs, to more than \$19,000 per employee—the fourth consecutive year of elevated trend. ([Aon, "U.S. Employer Health Care Costs Continue Multi-Year Climb," August 20, 2026](#)) ([prnewswire.com](#))
- **R1's acquisition of Humata moves prior authorization firmly inside the revenue-cycle platform.** The strategic target is no longer faster submission alone; it is preventing

authorization defects from becoming downstream denials.

- **General Catalyst is testing a new model of vertically financed health-system transformation.** Summa Health selected eight General Catalyst-backed technology companies, plus an affiliated orchestration partner, creating a captive implementation environment—but not yet proof of independent product-market fit.
- **Cityblock's Homeward transaction extends complex-population enablement across Medicaid, dual-eligible and rural Medicare Advantage markets.** The accompanying \$116 million financing indicates that capital remains available for scaled, risk-bearing care models despite broader value-based-care retrenchment.
- **Overall environment: modest deterioration for payer and purchaser economics, but improvement for well-positioned administrative-technology demand.** Persistent cost trend and MA growth discipline strengthen the case for measurable automation, payment integrity and care-management outcomes while raising the standard of proof for vendors.

The week's thesis is **selective consolidation under financial pressure**: payers are constraining unprofitable enrollment, employers are preparing for another high-cost renewal cycle, and technology buyers and capital providers are concentrating spending into broader workflow platforms. I am not repeating last week's Epic, UnitedHealth-governance, Wellcare-appeals or rural-grant stories because no public development during this window materially changed those theses.

1. Aetna's commission changes reveal where 2027 Medicare Advantage growth is no longer economic

Status: NEW

What happened

Aetna confirmed that it will make certain MA plans noncommissionable beginning September 15, with other plan changes taking effect January 1, 2027. A reliable public plan-level list and affected-membership total were unavailable as of the run date. ([Becker's Payer, "Aetna to cut Medicare Advantage broker commissions again," August 21, 2026](#)) ([beckerspayer.com](#))

Why it matters

Prior briefs found no new Aetna disclosure sufficient to change the company's medical-cost or Stars thesis. This does. Eliminating commissions is a targeted alternative to withdrawing a plan: Aetna can preserve coverage for existing members while reducing broker-driven new enrollment in products where projected utilization, benefits, Stars revenue or provider costs do not support attractive incremental margins.

The September 15 effective date is particularly notable because it acts before the annual enrollment period rather than waiting for 2027.

Strategist implication

For MA competitors, commission files are now an early-warning dataset for county-level growth intent. For brokers and distribution platforms, selective compensation increases conflict-management and plan-comparison requirements. For Aetna, lower acquisition expense and slower adverse growth should support unit economics, but reduced broker visibility could weaken membership mix or retention if beneficiaries migrate to actively marketed alternatives.

Technology spending should shift toward plan-level profitability, channel attribution and rapid reconciliation of bids, benefits, Stars expectations and actual utilization—not enterprise-wide growth analytics.

Watch next

Look for whether competitors respond with commission changes in overlapping counties and whether Aetna supplements broker pullbacks with direct-to-consumer acquisition.

2. The 2027 commercial trend print strengthens the utilization-management and payment-integrity case

Status: CONFIRM

What happened

Aon projects that U.S. employer healthcare costs will rise 9.5% in 2027, pushing average cost above \$19,000 per employee. It identified greater service utilization, chronic illness, high-cost claims and specialty-drug use as major drivers; employers currently absorb more than 80% of plan costs. The figure is a forecast, not an observed 2027 result. ([Aon, "U.S. Employer Health Care Costs Continue Multi-Year Climb," August 20, 2026](#)) ([prnewswire.com](#))

Why it matters

The print extends elevated trend beyond the current renewal cycle. For fully insured carriers, that raises pricing and retention risk. For administrative-services-only businesses, employers bear the claims directly, but insurers and benefits vendors face greater pressure to demonstrate that networks, utilization management and point solutions reduce net trend rather than merely add fees.

Providers should expect harder contract negotiations, more site-of-care steerage and greater scrutiny of coding intensity. Aon specifically noted that more detailed technology-enabled documentation may contribute to higher billed charges—an important reminder that clinical AI can improve completeness while simultaneously increasing purchaser costs.

Strategist implication

Demand should strengthen for prepayment review, high-cost-claim management, specialty-care navigation and ambulatory steerage. However, high trend also threatens marginal vendor budgets: purchasers will increasingly require savings validated against credible control groups and net of implementation, engagement and incentive costs.

Time horizon is immediate for 2027 renewals; confidence is medium because final employer actions can reduce the realized increase.

Watch next

The key evidence is the gap between gross forecasts and post-benefit-change trend—and how much employers transfer to workers through contributions, deductibles or narrower networks.

3. R1 is buying the authorization-to-claim control point

Status: NEW

What happened

R1 agreed to acquire Humata Health and integrate its AI-enabled prior-authorization capabilities into Phare OS, alongside utilization review, documentation, coding and revenue-cycle workflows. Transaction terms were not disclosed. ([R1, "R1 to Acquire Humata Health," August 18, 2026](#)) ([r1rcm.com](#))

Why it matters

Last week's benchmark data showed that authorization decision quality and appeal durability matter more strategically than speed alone. R1's move is the provider-side response: assemble the clinical evidence, identify payer requirements and secure authorization before a deficient submission becomes a denial, rescheduled procedure or uncollectible account.

This extends RCM competition upstream. The relevant operating loop becomes:

clinical order → payer rule → evidence package → authorization → coding → claim → denial feedback.

Strategist implication

Integrated RCM platforms gain a learning advantage because they can observe which authorization decisions ultimately produce clean claims and payment. Standalone prior-authorization vendors face higher displacement risk unless they offer demonstrably superior payer connectivity, specialty logic or neutral deployment across multiple RCM systems.

For payers, better provider submissions could reduce manual reviews and appeals, although automation may also increase request volume. The economic test is avoided denials and fewer human touches—not the percentage of transactions labeled “touchless.”

Watch next

R1 should disclose implementation-level results: authorization-related denial rates, rescheduled cases, touches per request and time from order to financially cleared service.

4. Summa’s technology stack turns a health system into a vertically financed proving ground

Status: NEW

What happened

Summa Health and General Catalyst’s HATCo selected Aidoc, Clarium, Commure, Fabric, Hippocratic AI, Judi Health, Transcarent and Verse Medical, with Percepta orchestrating the tools through a planned command center. Each named vendor is General Catalyst-backed. Summa includes hospitals, a physician group, an ACO and the SummaCare health plan. ([Summa Health via Business Wire, “Summa Health Unveils Technology Transformation Stack,” August 19, 2026](#)) ([markets.financialcontent.com](#))

Why it matters

This is a concrete implementation of the convergence thesis from prior briefs: clinical AI, ambient documentation, coding, RCM, claims infrastructure, navigation and post-acute coordination are being deployed as one operating architecture rather than through isolated departmental procurements.

But the arrangement also changes how evidence should be interpreted. Shared financial sponsorship can reduce contracting friction and accelerate integration; it can also weaken the independence of vendor selection and performance assessment.

Strategist implication

Summa could become a powerful reference site if HATCo publishes auditable baselines and outcomes. Until then, deployment validates access—not product-market fit. Other provider buyers should demand arm’s-length pricing benchmarks, data-portability rights, clear accountability for cross-vendor failures and exit provisions that prevent the orchestration layer from creating a new lock-in point.

No dependable economic results were disclosed this week. The first meaningful proof will be improvements in labor productivity, access, denial prevention, supply expense and medical-cost performance at SummaCare.

5. Cityblock is consolidating urban Medicaid and rural MA care infrastructure

Status: NEW

What happened

Cityblock signed an all-stock agreement to acquire rural-care provider Homeward Health while raising a \$116 million Series E led by General Catalyst. Cityblock reported almost 200,000 members and \$2.2 billion in annualized revenue, up 77% year over year; these are management-reported figures. ([Cityblock Health, “Scaling the Platform Custom-Built for the Biggest Challenges in Healthcare,” August 20, 2026](#)) ([cityblock.com](#))

Why it matters

Cityblock brings urban Medicaid and dual-eligible capabilities; Homeward adds rural Medicare Advantage delivery. The combination broadens the platform across populations, geographies and payer contracts at a time when many value-based-care companies have narrowed scope.

Strategist implication

Plans may increasingly prefer one scaled partner for complex-population engagement, home-based care and risk operations across multiple government programs. Yet Medicaid, dual-eligible and MA

economics are not interchangeable: each requires different attribution, quality, risk-adjustment, network and encounter-data capabilities.

The acquisition therefore increases Cityblock's addressable market but also its integration and contract-performance risk. For enabling vendors, it favors platforms that can normalize evidence and workflow across payer lines without collapsing distinct compliance standards.

Strategic synthesis

The incremental thesis is that **financial pressure is concentrating both distribution and technology**.

Aetna is narrowing where it will pay for growth. Employers are preparing for sustained high trend. R1 is absorbing prior authorization into RCM, while General Catalyst is assembling affiliated technologies inside a controlled delivery system. Cityblock is consolidating care models across government programs.

The commercial advantage shifts toward platforms that control multiple adjacent workflows—but only if they can prove that integration improves unit economics rather than merely increasing switching costs.

What I'm Watching Next

- **August 31, 2026:** CMS Healthcare Advisory Committee meeting covering Medicare Advantage sustainability, risk adjustment, quality, real-time data and fraud controls. ([CMS, Healthcare Advisory Committee](#)) ([cms.gov](#))
- **September 15, 2026:** First confirmed effective date for Aetna's new noncommissionable MA plan designations.
- **November 1, 2026:** Federal No Surprises Act IDR batching provisions become applicable to disputes whose open-negotiation periods begin on or after that date. ([CMS, Federal IDR Operations Implementation Timeline, August 2026](#)) ([cms.gov](#))

Bottom Line

The most important weekly change is visible MA and commercial-market retrenchment occurring alongside administrative-technology consolidation. The exposure requiring closest attention is **whether integrated authorization, RCM and care-management platforms produce externally**

verifiable savings. The August 31 CMS advisory meeting is the next event most likely to clarify the administration’s direction on MA risk, quality and real-time program integrity.

Notable Changes

Diversified healthcare company operating UHC insurance businesses and the Optum health services platform.

UnitedHealth Group is one of the largest private health insurers and provides medical benefits to about 51 million members globally, including 1 million outside the US as of December 2025. As a leader in employer-sponsored, self-directed, and government-backed insurance plans, UnitedHealth has obtained massive scale in medical insurance. Along with its insurance assets, UnitedHealth's Optum franchises help create a healthcare services colossus that spans everything from pharmaceutical benefits to providing outpatient care and analytics to affiliates and third parties.

CVS Health (CVS)

Payers · \$135.1B · 3m -0.3% · 12m +30.5% · 24m +58.3%

[Google Finance](#)

Healthcare retail ecosystem.

CVS Health offers a diverse set of healthcare services. Its roots are in its retail pharmacy operations, where it operates around 9,000 stores primarily in the US. CVS is also a large pharmacy benefit manager (acquired through Caremark), processing about 2 billion adjusted claims annually. It operates a top-tier health insurer (acquired through Aetna) through which it serves about 27 million medical members. The acquisition of Oak Street Health added primary care services to the mix, which could have significant synergies with all existing business lines.

Humana (HUM)

Payers · \$43.7B · 3m +23.0% · 12m +26.5% · 24m +7.4%

[Google Finance](#)

Large payer, Medicare and Medicare Advantage focused.

Humana is one of the largest private health insurers in the US, and the firm has built a niche specializing in government-sponsored programs, with nearly all its medical membership stemming from Medicare, Medicaid, and the military's Tricare program. Beyond medical insurance, the company provides other healthcare services, including primary-care services, at-home services, and pharmacy benefit management.

Oscar Health (OSCR)

Payers · \$9.4B · 3m +41.5% · 12m +90.7% · 24m +80.8%

[Google Finance](#)

Tech-focused payer with large exposure to exchange products and ICHRAs.

Oscar Health Inc is a healthcare technology company built around a full stack technology platform and a relentless focus on serving its members. It offers Individual & Family plans and health technology solutions that power the healthcare industry. Oscar operates as one segment to sell insurance to individuals, families and employees through the federal and state-run healthcare exchanges formed in conjunction with the Patient Protection and Affordable Care Act (ACA) and leverages its technology platform to provide services via its Oscar offering.

Molina Healthcare (MOH)

Payers · \$10.2B · 3m +8.8% · 12m +14.8% · 24m -42.1%

[Google Finance](#)

Managed-care company providing health insurance through government programs.

Molina Healthcare Inc provides medical insurance plans through Medicaid, the individual exchanges, and Medicare. The company operates in four reportable segments consisting of: 1) Medicaid; 2) Medicare; 3) Marketplace; and 4) Other. It manages health benefit risks for more than 5 million people, with more than 85% of those members coming through contracts with state governments for their Medicaid programs. Medicaid contracts in four states-California, New York, Texas, and Washington-account for over half of its enrollees.

Cigna (CI)

Payers · \$73.7B · 3m -3.0% · 12m -8.8% · 24m -21.6%

[Google Finance](#)

Employer-focused health insurance company.

Cigna primarily provides pharmacy benefit management and health insurance services. Its PBM and specialty pharmacy services, which were greatly expanded by its 2018 merger with Express Scripts, are mostly sold to health insurance plans and employers. Its largest PBM contract is with the Department of Defense, and it recently won a multiyear deal with top-tier insurer Centene. In health insurance and other benefits, Cigna primarily serves employers through self-funding arrangements, and the company operates mostly in the US with 16 million US and 2 million international medical members covered as of December 2025.

Elevance (ELV)

Payers · \$81.5B · 3m +1.5% · 12m +26.5% · 24m -26.6%

[Google Finance](#)

Health insurance company, previously named Anthem.

Elevance Health remains one of the leading health insurers in the US, providing medical benefits to 45 million medical members at the end of 2025. The company offers employer, individual, and government-sponsored coverage plans. Elevance differs from its peers in its unique position as the largest single provider of Blue Cross Blue Shield branded coverage, operating as the licensee for the Blue Cross Blue Shield Association in 14 states. Through acquisitions, such as the Amerigroup deal in 2012 and MMM in 2021, Elevance's reach expands beyond those states in government-sponsored programs, such as Medicaid and Medicare Advantage plans, too. It is also an emerging player in pharmacy benefit management and other healthcare services.

Clover Health (CLOV)

Payers · \$2.2B · 3m +16.9% · 12m +52.0% · 24m +24.3%

[Google Finance](#)

American healthcare company company providing Medicare Advantage insurance plans.

Clover Health Investments Corp is a healthcare technology company. It focuses on empowering Medicare physicians to proactively manage chronic diseases through its proprietary software platform, Clover Assistant. This cloud-based solution provides personalized insights to physicians, enabling early detection and management of chronic conditions. It operates in one segment: Insurance, through which it offers PPO and HMO plans to Medicare Advantage members in several states.

Centene (CNC)

Payers · \$30.7B · 3m +9.9% · 12m +121.1% · 24m -17.2%

[Google Finance](#)

Health insurance for government and privately insured healthcare programs.

Centene is a managed care organization that focuses on government-sponsored healthcare plans, including Medicaid, Medicare, and the individual exchanges. Centene served 20 million medical members as of December 2025, mostly in Medicaid (about 64% of membership), the individual exchanges (about 28%), and Medicare (about 5%). The company also provides Medicare Part D pharmaceutical plans.

Alignment Health (ALHC)

Payers · \$3.1B · 3m -19.5% · 12m -16.9% · 24m +42.0%

[Google Finance](#)

Tech-enabled Medicare Advantage Company.

Alignment Healthcare Inc is a next-generation, consumer-centric platform that is revolutionizing the healthcare experience for seniors through Medicare Advantage plans. These plans are marketed and sold direct-to-consumer, allowing seniors to select the manner in which customers receive healthcare coverage and services on an annual basis. The company combines a technology platform and clinical model for more effective health outcomes.

HCA Healthcare (HCA)

Health System Providers · \$87.2B · 3m +8.9% · 12m +6.0% · 24m +10.4%

[Google Finance](#)

Largest for-profit hospital and outpatient care operator in the United States.

HCA Healthcare is a Nashville-based healthcare provider organization operating the largest collection of acute-care hospitals in the United States. As of December 2025, the firm owned and operated 190 hospitals and over 2,500 outpatient facilities across 19 states and a small foothold in the United Kingdom.

Tenet Health (THC)

Health System Providers · \$20.5B · 3m +61.6% · 12m +56.4% · 24m +70.6%

[Google Finance](#)

Diversified healthcare provider with hospitals and a leading ambulatory surgery center platform through USPI.

Tenet Healthcare is a Dallas-based healthcare services organization. It operates acute and specialty hospitals (50 as of December 2025) and hundreds of ambulatory surgery centers and other outpatient facilities across the US, primarily in the South. Through its Conifer segment, Tenet also provides revenue cycle management solutions.

Universal Health Services (UHS)

Health System Providers · \$10.2B · 3m +12.3% · 12m -4.5% · 24m -24.0%

[Google Finance](#)

Hospital operator with significant acute care and behavioral health business.

Universal Health Services Inc offers healthcare services through its behavioral health centers, acute care hospitals, and related outpatient facilities. As of late 2025, the company operated 346 inpatient behavioral health centers, 29 acute care hospitals, and many supportive outpatient facilities. Its operations are concentrated in the U.S, particularly in Nevada (21% of 2025 operating profits), Texas (19%), and California (13%), although it does have some exposure to the UK behavioral health market (6% of 2025 sales) too. While its acute care services account for over 55% of revenue, the behavioral health centers sport higher margins and account for over 55% of pretax profits.

Community Health Systems (CYH)

Health System Providers · \$417.4M · 3m +7.5% · 12m +9.1% · 24m -40.5%

[Google Finance](#)

Operator of community hospitals primarily serving non-urban and regional markets.

Community Health Systems Inc is a publicly owned hospital operator in the United States. The company also owns four home health agencies and provides management and consulting services to independent hospitals. The firm derives revenue through a broad range of general and specialized hospital healthcare services and outpatient services.

Ardent Health Partners (ARDT)

Health System Providers · \$1.5B · 3m +19.1% · 12m -15.3% · 24m -36.4%

[Google Finance](#)

Regional hospital operator focused on integrated health systems across mid-sized US markets.

Ardent Health Inc is a provider of healthcare in growing mid-sized urban communities across the U.S and operating in eight growing mid-sized urban markets across six states Texas, Oklahoma, New Mexico, New Jersey, Idaho, and Kansas. The main focus on people and investments in services and technologies.

The Ensign Group (ENSG)

Inpatient Non-Acute Providers · \$10.4B · 3m +4.4% · 12m +4.1% · 24m +21.2%

[Google Finance](#)

Leading operator of skilled nursing facilities, rehabilitation centers, and senior-care services.

Ensign Group Inc provides post-acute healthcare services in the United States. Its regional subsidiaries oversee skilled nursing, assisted living, home health and hospice, mobile ancillary, and urgent care operations. Medicare and Medicaid programs contribute majority of revenue received for Ensign's services. The firm operates through two segments, Skilled services, and Standard Bearer. The skilled services segment includes the operation of skilled nursing facilities and rehabilitation therapy services. The Standard Bearer segment comprises of properties owned by the company through its captive REIT and leased to skilled nursing and assisted living operations. The majority of the revenue is generated from the skilled services segment.

Acadia Healthcare (ACHC)

Inpatient Non-Acute Providers · \$2.8B · 3m +20.0% · 12m +24.0% · 24m -65.2%

[Google Finance](#)

Largest provider of behavioral health and addiction treatment services.

Acadia Healthcare Co Inc acquires and develops behavioral healthcare facilities. Its facilities and services are classified into the following categories: acute inpatient psychiatric facilities; specialty treatment facilities; CTCs; and residential treatment centers. In which Acute inpatient psychiatric facilities contribute the majority of revenue in the United States. The Company has one reportable segment, behavioral healthcare services. The behavioral healthcare services segment provides inpatient and outpatient behavioral healthcare services.

Encompass Health (EHC)

Inpatient Non-Acute Providers · \$11.0B · 3m +14.6% · 12m -2.1% · 24m +31.5%

[Google Finance](#)

In-patient post-acute rehabilitation services.

Encompass Health Corp provides post-acute healthcare services in the United States through a network of inpatient rehabilitation hospitals, which is the company's sole segment. Inpatient rehabilitation contributes the majority of the firm's revenue and provides specialized rehabilitative treatment through a network of inpatient hospitals. The company's inpatient rehabilitation hospitals provide a higher level of rehabilitative care to patients who are recovering from conditions such as stroke and other neurological disorders, cardiac and pulmonary conditions, brain and spinal cord injuries, complex orthopedic conditions, and amputations.

PACS Group (PACS)

Inpatient Non-Acute Providers · \$7.3B · 3m +17.2% · 12m +267.2% · 24m +7.1%

[Google Finance](#)

Post-acute care and skilled nursing company.

PACS Group Inc is a post-acute healthcare company mainly focused on delivering skilled nursing care through a portfolio of independently operated facilities. The post-acute care ecosystem serves individuals who need additional help recuperating from acute conditions, illnesses, or serious medical procedures after getting discharged from the hospital. It also provides senior care, assisted living, and independent living options in some of the communities. The company has one reportable segment.

Healthpeak properties (DOC)

Health Care Real Estate · \$15.1B · 3m +8.5% · 12m +20.6% · 24m -4.7%

[Google Finance](#)

Healthcare industry real estate investment trust focused on outpatient medical offices, life science properties, an senior housing.

Healthpeak owns a diversified healthcare portfolio of approximately 700 in-place properties spread across mainly medical office and life science assets, plus a handful of senior housing, hospital, and skilled nursing/post-acute care assets, as well.

[Google Finance](#)

Digital behavioral-health company providing online therapy and mental-health services through employers and health-plans.

Talkspace Inc is a virtual behavioral healthcare company offering its members convenient and affordable access to a fully-credentialed network of qualified providers across a wide and growing spectrum of care through virtual psychotherapy and psychiatry. It is a single destination for comprehensive mental health care, including therapy for individuals, couples, and teens, as well as psychiatric treatment and medication management (18+), and self-guided tools and resources. The company's customers include Health insurance plans from commercial and government institutions, and employee assistance programs, Direct-to-Enterprise, and Individual subscribers. The company operates as a single segment.

Hims & Hers (HIMS)

Digital Health, Specialty, Benefits · \$6.4B · 3m +42.2% · 12m -24.2% · 24m +101.9%

[Google Finance](#)

Direct-to-Consumer telehealth platform for primary care, weight management, mental health, sexual health, and wellness.

Hims & Hers, launched in 2017, is a telehealth platform that connects patients and healthcare providers to offer treatment options for specialties like erectile dysfunction, hair loss, skin care, mental health, and weight loss. Its offerings include generic, branded, and compounded prescription drugs as well as over-the-counter medicines, cosmetics, and supplements. The platform, which has more than 2 million subscribers, is available in all 50 states and certain European markets like the UK. It includes provider networks, electronic medical records, cloud pharmacy fulfillment, and personalization capabilities. Hims does not take insurance and only accepts payments directly from customers.

LifeMD (LFMD)

Digital Health, Specialty, Benefits · \$169.3M · 3m -21.0% · 12m -47.7% · 24m -39.3%

[Google Finance](#)

Virtual primary-care and telehealth company known for chronic condition management.

LifeMD Inc is a patient-centric, direct-to-patient healthcare company providing a high-quality, cost-effective, and convenient way for patients to access virtual medical care and pharmacy services. The Company's portfolio of brands within continuing operations is now managed as a single operating segment, Telehealth. Telehealth platform integrates core capabilities, includes: A nationwide pharmacy network, A wholly-owned commercial pharmacy, A fully integrated patient care center, A direct-to-patient marketing infrastructure for acquisition and retention, and AI-enabled clinical and operational technologies.

Omada Health (OMDA)

Digital Health, Specialty, Benefits · \$1.2B · 3m +44.7% · 12m +12.1% · 24m n/a

[Google Finance](#)

Virtual chronic-care platform focused on diabetes, hypertension, obesity, and musculoskeletal conditions through employers and health plans.

Omada Health Inc empowers individuals to make lasting health changes through personalized, virtual care between doctor's visits. The integrated platform of the company supports members with cardiometabolic conditions like prediabetes, diabetes, hypertension, musculoskeletal issues, and behavioral health needs. The company's specialized care tracks also assist members using GLP-1 medications. The company delivers measurable health outcomes and value for employers, health plans, health systems, and pharmacy benefit managers.

GoodRx (GDRX)

Digital Health, Specialty, Benefits · \$1.0B · 3m +30.2% · 12m -24.3% · 24m -58.1%

Healthcare data providers for provider, hospital, physician, and payer intelligence databases.

Definitive Healthcare Corp is a provider of healthcare commercial intelligence. Its SaaS-based healthcare commercial intelligence platform is designed to provide comprehensive and accurate information on the healthcare ecosystem in the U.S. The platform uses deep analytics and data science to help customers develop data-driven strategic decisions, such as finding new markets to enter, building comprehensive go-to-market strategies, accessing tactical information to help target the right decision makers, and improving win rates with detailed contextual information. The company derives substantially all of its revenue from the sale of subscription fees for access to its platform and stand-ready support. Geographically, it derives a majority of its revenue from the United States.

Iqvia (IQV)

Health IT and Data · \$38.7B · 3m +54.7% · 12m +35.9% · 24m +4.4%

[Google Finance](#)

Dominant healthcare data, analytics, and contract research organization, supplying pharmaceutical companies with clinical research and commercial intelligence.

Iqvia is a global leader in clinical research and technology solutions for the life science industry. Formed in 2016 from the merger of Quintiles and IMS Health, it combined clinical trial services with extensive healthcare data and analytics. Its research and development solutions segment provides outsourced clinical development services spanning drug discovery, trial design, patient recruitment, site management, clinical testing, real-world studies, and the regulatory approval process. Its commercial solutions segment helps companies optimize product commercialization through analytics, technology, and outsourced sales and medical services. Together, Iqvia supports customers across the life science industry, and it serves biopharmaceutical firms, providers, payers, and policymakers.

Health Catalyst (HCAT)

Health IT and Data · \$154.4M · 3m +18.6% · 12m -53.4% · 24m -79.0%

[Google Finance](#)

Healthcare analytics and data-platform company that helps providers improve clinical, operational, and financial performance.

Health Catalyst Inc provides data and analytics technology and services to healthcare organizations. It has two operating segments. The Technology segment, the key revenue driver, includes data platform, analytics applications and support services and generates revenues mainly from contracts that are cloud-based subscription arrangements, time-based license arrangements, and maintenance and support fees; the Professional Services segment is generally the combination of analytics, implementation, strategic advisory, outsourcing, and improvement services to deliver expertise to its customers to more fully configure and utilize the benefits of the technology offerings.

Doximity (DOCS)

Health IT and Data · \$3.8B · 3m +27.0% · 12m -62.6% · 24m -30.6%

[Google Finance](#)

Professional network for physicians, combining recruiting, communications, telehealth, and workflow tools.

Doximity Inc provides an online platform, which enables physicians and other healthcare professionals to collaborate with colleagues, stay up to date with the latest medical news and research, manage their careers and on-call schedules, streamline documentation and administrative paperwork, and conduct virtual patient visits. The Company's customers include pharmaceutical companies and health systems that connect with healthcare professionals through the Company's digital Marketing, Hiring, and Workflow Solutions. Marketing Solutions provide customers with the ability to share tailored content on the network. Hiring Solutions enable customers to identify, connect with, and hire from the network of both active and passive potential medical professional candidates.

Veeva Systems (VEEV)

Health IT and Data · \$33.1B · 3m +54.8% · 12m -14.8% · 24m +24.4%

[Google Finance](#)

Leading cloud-software provider for life sciences companies, supporting CRM, clinical trials, regulatory processes, and commercialization.

Veeva is the global leading supplier of cloud-based software solutions for the life sciences industry. The company's best-of-breed offerings address operating and regulatory requirements for customers ranging from small, emerging biotechnology companies to departments of global pharmaceutical manufacturers. The company leverages its domain expertise to improve the efficiency and compliance of the underserved life sciences industry, displacing large, highly customized and dated enterprise resource planning systems that have limited flexibility. Its two main products are Veeva CRM, a customer relationship management platform for companies with a salesforce, and Veeva Vault, a content management platform that tackles various functions within any life sciences company.

Omnicell (OMCL)

Health IT and Data · \$1.7B · 3m -19.9% · 12m +5.8% · 24m -20.6%

[Google Finance](#)

Pharmacy automation, medication management, and healthcare workflow software.

Omniceil Inc provides automation and business analytics software for healthcare providers. The company is engaged in transforming the pharmacy and nursing care delivery model. The company helps its customers define and deliver cost-effective medication management designed to equip and empower pharmacists and nurses to focus on patient care rather than administrative tasks and drive improved clinical, operational, and financial outcomes across all care settings. The company derives the majority of its revenue from the United States.

McKesson (MCK)

Pharma Distribution · \$97.2B · 3m +12.1% · 12m +24.6% · 24m +55.6%

[Google Finance](#)

Largest pharmaceutical distributor in North America.

McKesson is one of three leading pharmaceutical wholesalers in the US engaged in sourcing and distributing branded, generic, and specialty pharmaceutical products to pharmacies (retail chains, independent, and mail order), hospitals networks, and healthcare providers. Along with Cencora and Cardinal Health, the three account for over 90% of the US pharmaceutical wholesale industry. Outside the US market, McKesson engages in pharmaceutical wholesale and distribution in Canada. Additionally, the company supplies medical-surgical products and equipment to healthcare facilities and provides a variety of technology solutions for pharmacies.

Cardinal Health (CAH)

Pharma Distribution · \$54.7B · 3m +14.4% · 12m +55.0% · 24m +109.7%

[Google Finance](#)

One of the big three drug wholesalesrs, providing pharma distribution, medical products, and supply chain services.

Cardinal Health is one of three leading pharmaceutical wholesalers in the US, engaged in sourcing and distributing of branded, generic, and specialty pharmaceutical products to pharmacies (retail chains, independent, and mail order), hospital networks, and healthcare providers. Cardinal, Cencora, and McKesson hold well over 90% of the US pharmaceutical wholesale industry. Cardinal Health also supplies medical-surgical products and equipment to healthcare facilities in North America, Europe, and Asia.

Cencora (COR)

Pharma Distribution · \$59.6B · 3m +15.7% · 12m +8.7% · 24m +33.8%

[Google Finance](#)

Formerly AmerisourceBergen, Global pharmaceutical distribution and specialty-services leader.

Cencora is one of three leading domestic pharmaceutical wholesalers. It sources and distributes branded, generic, and specialty pharmaceutical products to pharmacies (retail chains, independent, and mail order), hospital networks, and healthcare providers. It and McKesson and Cardinal Health hold over 90% share of the US pharmaceutical wholesale industry. Cencora also provides commercialization services for manufacturers of pharmaceuticals and medical devices, global specialty drug logistics (World Courier), and animal health product distribution (MWI Animal Health). Cencora expanded its international presence in 2021 by purchasing Alliance Healthcare, one of the leading drug wholesalers in Europe.

Accendra Health (AHCO)

Pharma Distribution · \$912.9M · 3m -46.1% · 12m -41.4% · 24m -46.1%

[Google Finance](#)

Medical and Surgical supply distributor with a significant healthcare logistics business.

AdaptHealth Corp is engaged in providing patient-centered, healthcare-at-home solutions including home medical equipment (HME), medical supplies, and related services. The Company operates under four reportable segments that align with its product categories: (i) Sleep Health, (ii) Respiratory Health, (iii) Diabetes Health, and (iv) Wellness at Home. The company generates majority of its revenue from the Sleep Health segment. The Sleep Health segment provides sleep therapy equipment, supplies and related services (including continuous positive airway pressure and BiLevel services) to individuals for the treatment of obstructive sleep apnea.

Henry Schein (HSIC)

Pharma Distribution · \$10.2B · 3m +19.3% · 12m +27.2% · 24m +25.0%

[Google Finance](#)

Leading dental product, tech, and physician office supply distributor.

Henry Schein Inc is a solutions company for healthcare professionals. It offers healthcare equipment, products, and services to office-based dental and medical practitioners, as well as alternative sites of care. The company's reportable segments are: Global Distribution and Value-Added Services, Global Specialty Products, and Global Technology. It generates maximum revenue from the Global Distribution and Value-Added Services segment, which includes distribution to the dental and medical markets of national brand and corporate brand merchandise, as well as equipment and related technical services. This segment also includes value-added services such as financial services, continuing education services, consulting, and other practice services.

Natera (NTRA)

Precision Diagnostics · \$39.4B · 3m +63.4% · 12m +100.5% · 24m +170.6%

[Google Finance](#)

molecular diagnostics leader using cell-free DNA testing for prenatal screening, oncology monitoring, and transplant surveillance.

Natera Inc is a diagnostic and research company with proprietary molecular and bioinformatics technology. The company's key product offerings include its Panorama Non-Invasive Prenatal Test (NIPT) which screens for chromosomal abnormalities of a fetus as well as in twin pregnancies, typically with a blood draw from the mother, Horizon Carrier Screening (HCS) to determine carrier status for a large number of severe genetic diseases that could be passed on to the carrier's children, Signatera molecular residual disease (MRD) test, which detects circulating tumor DNA in patients previously diagnosed with cancer to assess molecular residual disease and monitor for recurrence; and Prospera, to assess organ transplant rejection.

NeoGenomics (NEO)

Precision Diagnostics · \$2.1B · 3m +84.0% · 12m +157.1% · 24m +1.9%

[Google Finance](#)

precision oncology diagnostics company providing cancer testing, genomic profiling, and biomarker services.

NeoGenomics Inc provides oncology diagnostic testing and consultative services which include technical laboratory services and professional interpretation of laboratory test results by licensed physicians or molecular experts in pathology and oncology. The company operates a network of cancer-focused testing laboratories in the United States and the United Kingdom. The company operates in a single segment and derives revenue from clients by providing clinical cancer testing, interpretation, and consultative services, molecular and NGS testing, comprehensive technical and professional services offerings, clinical trials and research, validation laboratory services, and oncology data solutions.

BillionToOne (BLLN)

Precision Diagnostics · \$6.5B · 3m +10.6% · 12m n/a · 24m n/a

[Google Finance](#)

molecular diagnostics company focused on prenatal screening and precision oncology testing.

BillionToOne Inc is a molecular diagnostics company. It offers a portfolio of ultrasensitive tests covering prenatal genetic testing, cancer therapy selection, and response monitoring, which are based on its Quantitative Counting Templates (QCT) molecular counting platform. The company's product portfolio comprises UNITY, a portfolio of prenatal testing products that can conduct fetal risk analysis without requiring a paternal sample; Northstar Select, a ultrasensitive liquid biopsy test that provides insights into appropriate therapies for stage III or IV cancer patients; and Northstar Response, a tissue-free, pan-cancer, liquid biopsy test that measures several genomic loci uniquely methylated in cancer to provide insight into dynamic changes in therapy response.

Guardant Health (GH)

Precision Diagnostics · \$21.4B · 3m +43.5% · 12m +178.0% · 24m +488.2%

[Google Finance](#)

liquid-biopsy leader using blood-based genomic testing for cancer detection, treatment selection, and disease monitoring.

Guardant Health, based in Redwood City, California, is a leader in liquid-based cancer tests for clinical and research use. The company's main franchises are Guardant360 for genomic profiling of tumors, Reveal for molecular residual disease testing, and Shield for colorectal cancer screening. Additionally, Guardant offers research development services such as regulatory approval consultancy and clinical trial referrals.

Tempus AI (TEM)

Precision Diagnostics · \$8.5B · 3m +57.4% · 12m -9.7% · 24m +11.9%

[Google Finance](#)

precision medicine company combining genomic testing, clinical data, and artificial intelligence to support treatment decisions and drug development.

Tempus AI Inc is a technology company. It has built the Tempus Platform, which comprises both a technology platform to free healthcare data from silos and an operating system to make the resulting data useful. Its Intelligent Diagnostics use AI, including generative AI, to make laboratory tests more accurate, tailored, and personal.

Illumina (ILMN)

Precision Diagnostics · \$30.7B · 3m +51.9% · 12m +115.5% · 24m +67.0%

[Google Finance](#)

leading DNA sequencing platform company providing foundational technology for genomics research and clinical testing.

Illumina provides tools and services to analyze genetic material with life science and clinical lab applications. The company generates over 90% of its revenue from sequencing instruments, consumables, and services. Illumina's high-throughput technology enables whole genome sequencing in humans and other large organisms. Its lower throughput tools enable applications that require smaller data outputs, such as viral and cancer tumor screening. Illumina also sells microarrays that enable lower-cost, focused genetic screening with primarily consumer and agricultural applications.

10x Genomics (TXG)

Precision Diagnostics · \$6.1B · 3m +175.0% · 12m +355.4% · 24m +177.2%

[Google Finance](#)

leader in single-cell and spatial biology technologies used in genomics research and drug discovery.

10x Genomics Inc is a life science technology company based in the United States. Its solutions include instruments, consumables, and software for analyzing biological systems. The company's integrated solutions include instruments, consumables, and software for analyzing biological systems at a resolution and scale that matches the complexity of biology. Its product offerings include a Chromium platform comprising microfluidic chips and related consumables, Chromium X series, Visium and Xenium platforms, and others, which are predominantly used for the study of biological components. Geographically, the company derives operates from the United States and the rest from Americas (excluding the United States), Europe, Middle East and Africa, China, and Asia-Pacific (excluding China).

PacBio (PACB)

Precision Diagnostics · \$447.3M · 3m +10.7% · 12m -2.2% · 24m -13.5%

[Google Finance](#)

developer of long-read DNA sequencing technologies used to analyze complex genomes.

Pacific Biosciences of California Inc is a biotechnology company focused on designing, developing, and manufacturing sequencing solutions that enable scientists and clinical researchers to improve their understanding of the genome and ultimately, resolve genetically complex problems. It operates in, one reportable segment: the development, manufacturing, and marketing of an integrated platform for genetic analysis. The majority of the company's revenue is derived from Americas, followed by Europe Middle East, and Africa and Asia-Pacific.

QuidelOrtho (QDEL)

Precision Diagnostics · \$1.2B · 3m +24.3% · 12m -47.2% · 24m -67.3%

[Google Finance](#)

diagnostics company providing clinical laboratory, immunoassay, and point-of-care testing solutions.

QuidelOrtho Corp is engaged in the development, manufacturing, and marketing of rapid diagnostic testing solutions. The company is engaged in immunoassay and molecular testing, clinical chemistry, and transfusion medicine, which helps clinicians and patients to make decisions across the globe. Geographically, the company has its presence in North America, EMEA, China, and Other countries. It generates the majority of its revenue from North America.

Quest Diagnostics (DGX)

Precision Diagnostics · \$25.8B · 3m +25.2% · 12m +35.6% · 24m +59.1%

[Google Finance](#)

largest U.S. independent clinical laboratory and diagnostic testing company.

Quest Diagnostics is a leading independent provider of diagnostic testing, information, and services in the US. The company generates over 97% of its revenue through clinical testing, anatomic pathology, esoteric testing, and substance abuse testing with specimens collected at its national network of roughly 2,400 patient service centers, as well as multiple doctors offices and hospitals. The firm also runs a much smaller diagnostic solutions segment that provides clinical trials testing, risk-assessment services, and information technology solutions.

Labcorp Holdings (LH)

Precision Diagnostics · \$25.3B · 3m +29.4% · 12m +20.9% · 24m +45.7%

[Google Finance](#)

leading diagnostics and laboratory services company with substantial genomic and specialty testing capabilities.

Labcorp is one of the nation's two largest independent clinical laboratories, with roughly 20% of the independent lab market. The company operates approximately 2,000 patient-service centers, offering a broad range of 5,000 clinical lab tests, ranging from uncomplicated routine blood and urine screens to complex oncology and genomic testing.

Certara (CERT)

Precision Diagnostics · \$1.2B · 3m +60.9% · 12m -26.5% · 24m -36.6%

[Google Finance](#)

biosimulation and data-driven drug development company supporting precision medicine and clinical development.

Certara Inc accelerates medicines to patients using biosimulation software and technology to transform traditional drug discovery and development. It provides modeling and simulation, regulatory science, and assessment software and services to help clients reduce clinical trials, accelerate regulatory approval, and increase patient access to medicines. The company has its business presence in the Americas, which is also its key revenue-generating market, EMEA, and the Asia Pacific region.
